DÉLICE
CHOCOLATES
BELGIAN QUALITY

AN INNOVATIVE
CHOCOLATE STUDIO

OUR STORY

"Our goal is to create and offer exclusive premium quality innovative products."

Délice is a true Belgian family business with a soul for chocolate.

Our vision is to create and offer an exclusive premium quality, through innovative and artisanal products that offer an added value to the assortment of our customers.

This incredible journey started in 1976 in Kortrijk with Marc Hauspy, after a 10 years' experience in the world of pastry. He opened his own chocolate store to create a wide assortment of premium quality products.

After 40 years of growth, the family Lingier joined Délice. With their 4 generations of experience in the world of chocolate and confectionery they strengthened and further developed this beautiful company

In 2018 Délice moved to a completely new production unit in Ostend. A premium chocolate studio was created where craftsmanship merged with innovation. With our own in-house exclusive design and innovative product development we distinguish ourselves and our products in the market.

Our chocolatiers are fully equipped with advanced machinery, allowing them to meet the highest standards for our customers. All of this in combination with manual craftsmanship, we give each of our chocolates a personal finishing touch.

"The focus of our passionate employees on quality in all of our processes is rewarded since 2020 with a BRC Grade A certificate."

The focus of our passionate employees on quality in all of our processes is rewarded since 2020 with a BRC Grade A certificate. With their daily attention to detail, we guarantee the premium quality of our products.

With our priority on building long-term relationships with our customers, Délice has become a partner for customers not only in Belgium but also abroad: France, the Netherlands, Italy, Spain, Greece, Poland, Morocco, Austria...

We're looking forward to further develop our beautiful chocolate story and realizing our ambitious plans for the future, together with our partners.

SUSTAINABILITY FOR CACAO

CACAO HORIZONS: GROWING IMPACT & DRIVING CHANGE

At Délice, we have pledged to ensure that our cocoa is supplied from ethical and sustainable resources. This allows us to work with the Cocoa Horizons foundation to protect the communities and the planet when purchasing our cocoa, whilst never compromising on quality.

The Cocoa Horizons foundation is a sustainability programme initiated by Barry Callebaut. Their goal is to improve the working and living conditions of the people working in the cacao industry.

By joining a certification program both cocoa farmer through to chocolate factory can work together. They focus on productivity, environment and community addressing issues such as zero child labour, educating cocoa farmers and making them more prosperous.

WE USE SUSTAINABLE CHOCOLATE
